

Department of Chemistry

Colgate University, Hamilton, NY 13346

Seminar Schedule -- Fall 2006

11:30 A.M. in 111 Wynn Hall

Refreshments at 11:20

- Date:** **Speaker:**
- September 5 **Ann Landstrom**, Center for Career Services, Colgate University
with **Keith Broekhuizen** and **Julie Chanatry** (Health Sciences Advisor)
“Jobs, Internships, and Graduate School”
- September 12 **Dr. Anthony Chianese**, Department of Chemistry, Colgate University
“Platinum and Gold Catalyzed Electrophilic Cycloisomerization of Allenenes”
- September 19 **Dr. Timothy Elgren**, Hamilton College
“Harnessing the Power of an Enzyme”
- September 26 **Dr. Karin Ruhlandt-Senge**, Syracuse University
“Not just heavy Grignard reagents, the organometallic chemistry of the heavy alkaline earth metals”
- October 3 **Dr. Murray Johnston**, University of Delaware
“Laboratory and Field Investigations of Atmospheric Nanoparticles”
- October 10 **Dr. John Muenter**, University of Rochester
“Stark Induced Quantum Beats in Water: A New Window on Water's Contribution to the Greenhouse Effect”
- October 17 **No seminar, Fall Break**
- October 24 **Dr. Anna Gudmundsdottir**, University of Cincinnati
“Triplet Sensitized Photolysis of Vinyl and Alkyl Azides in Solution and in the Solid State”
- October 31 **Dr. Kimberly Frederick**, College of the Holy Cross
“Bedside Diagnostics and Artificial Blood Vessels: Adventures with Electroosmotic Flow in CE and Microfluidics”
- November 7 **Dr. Sarah Goh**, Williams College
“Biodegradable Polymers in Drug Delivery Applications”
- November 14 **Dr. Eric Tillman**, Bucknell University
“Synthesis of Functionalized Polymers Using Controlled Radical Polymerization”
- November 21 **No Seminar, Thanksgiving Break**
- November 28 **Dr. Alan Grossfield**, IBM T.J. Watson Research Center, Blue Gene Project
Joint seminar with Physics and Astronomy, Computer Science, and Biology
“TBA”
- December 5 **Dr. K. Travis Holman**, Georgetown University
“The Remarkable Chemistry of Molecular Containers”
